

# Hybrid Solar Wind Generation System

## EE491 Weekly Report 2

Group: May15-21

Advisor: Venkataramana Ajarapu

Client: Venkataramana Ajarapu

Team members

- Daoxi Sun
- Riley O'Connor- *team leader*
- Trevor Webb
- Shihao Ni
- Xiaokai Sun
- Ben Ryan

Met with advisor, and split into two groups. One group of three will focus on designing the wind aspect of the project, and the other three will focus on designing the solar aspect of the project.

Defined leadership roles within the group, and obtained a list of hardware components.

Identified the problem, and defined a more specific scope.

All team members need to read provided material for the week, as well as look at the past project information about the wind solar generation project.
